About Sanvo

1994-2002

Originally the Guangdong SANVO Chemical Technology Co., Ltd. in 1994, we soon entered the market as "SANVO" in 1997. By 2002, the SANVO Fine Chemicals Group was established, whereby we gained a reputation for excellent formulation for our line of coating, adhesives, and aerosol paints.

2002-2010

Having passed the ISO9001 and ISO14001 certification in 2006, we began to develop products for our overseas markets. From 2007 to 2010, SANVO has won numerous accolades from universities and scientific institutes for our research and development contributions. As such, we have established teaching facilities to train more experts to set standards for the industry.

2010-2016

Participation in the drafting of JC/T2083-2011 and JC/T2082-2011 standards in 2012 has improved our standing in global regions. The OA office automation system was fully launched in 2014. In 2015, we established a group marketing headquarters to improve our reach. We put into production in 2016 the Futian division, e-commerce department, and twin-screw extruder.

2016-2020

As we updated our brand strategy by 2017, SANVO Group's revenue exceeded 1 billion yuan for the first time. Improvements on our brand image and furniture paint capabilities were made in 2018. Along with obtaining CE certification and opening to the EU market in 2019, we were officially listed on the Hong Kong Stock Exchange.

▲ Guangdong SANVO Chemical Industry Technology Limited(SV Plant)

▲ Guangdong FUVU industry Limited (FV plant)

▲ Guangdong SANVO holding Limited(SK plant) ▲ Guangdong Shunde SANVO Chemical Industry Limited(XV Plant)

Founded in 2002, SANVO Fine Chemicals Group is a technology group integrating science, industry and trade, dedicated to the R & D, manufacturing and sale of aerosol, silicone, synthetic rubber, lubricant (including lubricating oil and lubricating grease), waterproof building coating, furniture paint, decoration paint and other products.

SANVO Fine Chemicals Group entered the Chinese market with the brand of **SANVO 三和**, and entered the international market with the brand of **SANVO**. It adheres to "Science for Life, Innovation Leads the Future" as its mission. It was listed on the HK main board of Hong Kong Stock Exchange in 2020 (stock code: 301.HK), and has now developed into a well-known brand in the fine chemical industry in the domestic vehicle maintenance and construction decoration materials.

Certification

Aerosol Series Products

General Purpose Spray Paint

Features

Sanvo Spray Paint is a thermoplastic acrylic aerosol spray paint and it has the characteristic of easy performance, good atomization, high spray rate. The paint can dry fast and the film finish has excellent hardness, adhesion, gloss and flexibility, impact resistance, colorful surface and good decorative effect, wonderful protect ability.

1. High-quality, high solid content.
2. Fast-drying, multiple use.
3. Perfect paint film and effect.
4. Durable and excellent weather resistance.

Application

It can be widely used for metals, wood with finished surfaces, glass, ABS and other surfaces.

Package

400ml/230g × 12pcs

400ml/250g × 12pcs

400ml/310g × 12pcs

Shelf Life: 3 years

Metallic Spray Paint

Features

Sanvo Metallic Spray Paint is an acrylic based aerosol spray paint that provides premium solutions for a variety of sectors such as industrial maintenance, automotive equipments, Touch-Up, DIY and crafts.

1. Quick drying, high solid content.
2. Excellent coverage and metallic effect.
3. Durable and excellent weather resistance.
4. Good decorative effect, wonderful protect ability.

Application

It can be widely used for metals, wood with finished surfaces, glass, ABS and other surfaces.

Package

400ml/230g × 12pcs

400ml/250g × 12pcs

400ml/310g × 12pcs

Shelf Life: 3 years

Chrome Spray Paint

Features

Sanvo Chrome Spray Paint is imitation chrome-plated, gold-plated, galvanized, silver-plated aerosol paint. It is refined with special metal pigments, resins and new special additives.

1. Simple operation, flexibility.
2. Good atomization and high spray rate.
3. Good decoration and protection functions
4. Strong metallic mirror effect.

Application

For various metals, surface treated glass, wood, ABS plastic and other substrates have excellent decorative and protective functions.

Package:

400ml/230g × 12pcs

400ml/250g × 12pcs

400ml/310g × 12pcs

Shelf Life: 2 years

Fluorescent Spray Paint

Features

This product is a daytime fluorescent aerosol paint, different from luminous paint. In the sunlight, the reflection of most of the fluorescence band light, thus showing more vivid than the ordinary color. For maximum visibility and safety at home, office or plant. Highly visible when used on any surface with a white base for daytime brilliance. Adds dazzle to floral and festive ornaments, displays, posters or stencils. Also accents safety hazards.

1. Fluorescent colors provide high visibility.
2. Fast-drying, good atomization and high spray rate.
3. Good hardness of paint film, good adhesion.
4. Excellent gloss and colour retention.
5. Protects and beautifies.

Application

For metal, surface treated glass, wood, ABS plastic and other substrates have good decorative and protective functions.

Package: 400ml/230g × 12pcs 400ml/250g × 12pcs
400ml/310g × 12pcs

Shelf Life: 3 years

Hammer Finish Spray Paint

Features

Sanvo Hammer Finish Spray Paint provides a fast, durable, beautiful finish for any indoor or outdoor project. This paint is designed to produce a hammered-like effect which will add a pop of interesting contrast to your projects and crafts. Use it on metal, wood, wicker, ceramic, glass, masonry, plaster, and more.

1. Simple operation and eco-friendly.
2. No fading and durable.
3. Uniform coating.
4. Wide application.
5. Stain resistance and strong coverage.

Application

It is perfect for indoor or outdoor use on metal, wood, fibreglass and most surfaces.

Package: 400ml/230g × 12pcs 400ml/250g × 12pcs
400ml/310g × 12pcs

Shelf Life: 2 years

High Temperature Spray Paint

Features

High Temperature Spray Paint is a heat resistant silicon-based flat finishing coat designed for use on metal surfaces subject to extreme heat.

1. Heat resistant to 350°C~400°C (662°F~752 °F).
2. Dry quickly and has good adhesion to all substrates.
3. Quick drying.
4. Excellent coverage and durable.
5. Suitable for interior and exterior use.

Application

Ideal for use on automotive, motorcycle exhaust pipes, ovens, boilers, chimneys and other surfaces.

Package: 400ml/230g × 12pcs 400ml/250g × 12pcs
400ml/310g × 12pcs

Shelf Life: 3 years

Line Marking Paint

Features

Sanvo Line Marking Paint is an aerosol thermoplastic acrylic self-drying paint with high solid content, good storage stability, good film adhesion, rapid drying, excellent coverage, abrasion resistance, and UV resistance, which can meet the long-term outdoor marking effect. This product is equipped with unique valves and buttons, and adopts inverted spraying construction. The marking width can be adjusted at will between 6cm and 13cm, which can meet the marking requirements of most widths.

1. Sharp and durable lines.
2. Better opacity.
3. Adjustable line width (6-13cm).
4. Robust industrial quality.
5. Applicator does not need cleaning after use.

Application

Ideal for drawing lines in parking areas, warehouses, sports fields, stadiums and all sites where traffic control is required. Application on asphalt, concrete, grass, metal and wood.

Package: 750ml/750g × 12pcs 650ml/650g × 12pcs
Shelf Life: 3 years

Flammable Mine Marking Paint

Features

This product is specially formulated for above/below ground areas. High opacity, high quality, true colour pigment loading. 360 degree valve for any direction spray. Applications include marking out ore zones in grading control, pit walls and survey grid layouts.

1. High opacity, high quality, true colour pigment loading.
2. 360 degree valve for any direction spray.
3. Bright, highly visible marks on dark surfaces.

Application

It is a marking out paint specially formulated for above / below ground areas (not recommended for underground coalmines-use Mine Marking Non-Flammable). Applications include marking out ore zones in grading control, pit walls and survey grid layouts.

Package: 400ml/350g × 12pcs
Shelf Life: 3 years

Non-flammable Mine Marking Paint

Features

This product is formulated for use in underground mines and other fire sensitive situations. 360 degree valve for any direction spray. Bright, highly visible marks on dark surfaces.

1. Non-flammable layout marker.
2. Formulated for use in underground mines and other fire sensitive situations.
3. 360 degree valve for any direction spray.
4. Bright, highly visible marks on dark surfaces.

Application

It is a layout marker specifically formulated for use in underground mines and fire sensitive situations. Suitable Surfaces: Rock, dirt and gravel.

Package: 500ml/400g × 12pcs
Shelf Life: 3 years

Spot Marking Paint

Features

This product is a premium marking out paint designed for a range of applications including construction, landscaping, civil works, and surveying. With a unique spray pattern specifically designed for spot marking as well as writing applications. Available in a range of high visibility colours.

1. Premium temporary marking out paint.
2. Toluene-free formula.
3. Designed for inverted use.
4. High opacity, high quality, true colour pigment loading.

Application

Suitable for marking out roadworks, building sites, golf courses and sporting areas.

Package:400ml/350g × 12pcs

Shelf Life:3 years

Water-based Spray Paint

Features

This product is water-based formula, low odor, safety, environmental protection, low VOC content, does not contain irritating organic solvent odor, excellent film performance, widely used in metal, wood, wall, ABS, styrene foam and other material objects spraying repair.

1. Low odour and Low VOC content.
2. Indoor use.
3. Safety and eco-friendly.
4. Excellent film performance.

Application

Widely used in metal, wood, wall, ABS, styrene foam material objects such as spraying repair. Suitable for indoor spray paint, fast drying, good film fullness.

Package:400ml/250g × 12pcs

Shelf Life:3 years

Aerosol Wall-repair Spray

Features

This product is a quick-drying water-based aerosol paint. It is composed of water-based acrylic resin, pigment, filler, and propellant. It is good smell, environmentally friendly, easy to use, good atomization, high spray rate, high fullness of paint film, good adhesion, and strong cover. It can be widely used for decorating and repairing of internal and external walls (in small areas), such as houses, schools, hotels, office buildings, as well as DIY graffiti art creation, symbols on public places, etc.

1. Water-based formula.
2. Good atomization.
3. Strong covering power.
4. Easy to use.
5. Eco-friendly and Low odour.

Application

It can be widely used in the decoration and repair of small areas of dirty inside and outside walls of buildings such as residential buildings, schools, hotels and office buildings, as well as DIY graffiti art creation and signs in public places.

Package:400ml/288g × 12pcs

Shelf Life:18 months

Rubberized Undercoating

Features

This product is a component of the base paint (base coat), which is made from thermoplastic acrylic, specially formulated for use as an anti-corrosive primer for metal, because it contains anti-corrosion additive materials.

1. Dry quickly, good adhesion.
2. Corrosion-resistan.
3. Prevents rust, non-yellowing.
4. With good elasticity & flexibility.

Application

It is suitable for waterproof and rust prevention of various base objects such as automobile chassis and home construction.

Package

400ml/230gX12pcs

400ml/250gX12pcs

400ml/310gX12pcs

Industrial Aerosols

Carb Cleaner

Features

SANVO Carb Cleaner contains unique dispersant and penetrant, and adopts the method of strong solvent high-speed washing to effectively remove the colloid, sludge, paint film and other deposits in the carburetor, choke, electronic ejector and other parts. Restore the carburetor to a good working condition, enhance the combustion and explosion power of the engine, without damaging oxygen sensitive devices,

1. Unique penetration formula.
2. Quick cleaning, high efficiency.
3. Powerful decontamination.
4. Simple and practical.
5. Low VOC.

Application

It is suitable for cleaning carburetor, choke, electronic ejector and other parts of the glue, mud, paint film and other deposits.

Package:400ml/262g X12pcs 400ml/262gX 24pcs

Shelf Life:2 years

Paint Remover Spray

Features

SANVO Paint Remover Spray is an aerosol type peeling paint remover, which has the advantages of simple construction and operation, high paint removal efficiency, and no corrosion to metal substrates.

1. Simple construction and operation.
2. High paint removal efficiency.
3. No corrosion to metal substrates.

Application

It is especially suitable for the removal of self-drying alkyd paint, amino baking paint, nitrocellulose paint, acrylic paint and part of epoxy and low-temperature curing two-component paint.

Package:400ml/271g×24pcs 1L/800g×12pcs

Shelf Life:3 years

Adhesive Remover

Features

SANVO Adhesive Remover is made with a special formula and contains a unique penetrant, which can be quickly immersed in a variety of stubborn glue layers, with fast degumming speed, fresh smell, simple operation and small dosage.

1. Removes sticky adhesive residue
2. Renews the appearance of vehicles with a fresh, clean surface
3. Safe for use on painted surfaces, vinyl, and fabric when properly used
4. Turns stubborn adhesive grime into a no-problem cleanup

Application

Useful to clean and degrease metal parts, motors, tools, printing presses, concrete, or almost any dirty or greasy surface.

Package:400ml/250g X12pcs
Shelf Life:3 years

Mold Release Agent(oiliness & Dry Film)

Features

SANVO Mold Release Agent is suitable for most applications where post-mold painting is not required, which increases the life of dies and molds, improves product surface finishes and reduces production times. Prevents Sticking to increase the life of dies and molds, improve product surface finishes and reduce production times. Rapid Dry, anti-stick mold release agent suitable for cold and hot molds.

1. Multiple part releases per application
2. Ideal for hot or cold molds
3. Non-staining, non-corrosive and fast drying

Application

Usually used in the production and release of various plastic, rubber, glass, and metal industrial products.

Dry film release agents are suitable for secondary processing, such as oil spraying, silk screen printing, electroplating, bronzing, transparent products and high-precision electronic product printing.

Package :400ml/250gX12pcs
Shelf Life:3 years

Multi-purpose Foam Cleaner

Features

SANVO Multi-Purpose Foam Cleaner is rich in surface active factors, so it has strong penetration and detergency. It utilizes unique foam properties to absorb, wrap, and transfer dirt, and is equipped with excellent washing auxiliaries to achieve excellent cleaning effects. Using this product, it is convenient to clean locally or as a whole in the car, such as car seats, dashboards, ceilings, etc., and has the characteristics of gentleness and safety. This product is also suitable for daily cleaning of ceramic tiles, stoves, tables and chairs, metal utensils, etc.

1. Deep cleaning foaming action lifts dirt, helps restore true color
2. Works great on your car's fabric and vinyl upholstery, floor mats, and carpets
3. Great for auto, boat and home use
4. Works on many washable surfaces including painted walls, fixtures, tile and more.

Application

Removes handprints, grease spots, crayon marks and scuff marks from surfaces throughout your home. It's perfect for bathrooms, kitchens and touch-up cleaning and produces sparkling results when used on hard surfaces, such as counters, walls, tile and floors. All your cleaning products are wrapped into one multi-purpose cleaner.

Package:650ml/506g×12pcs
Shelf Life:3 years

Kitchen Cleaner

Features

SANVO Kitchen Cleaner is an ultimate multi-surface cleaner producing a penetrating foam that takes on grime where it hides. The leading Foam Cleansing delivers amazing fragrance while removing 100% of soap scum. With our All-Purpose Bubble Cleaner, you could easily clear all greases and dirt, keeping your toilet and kitchen fresh up to 3 month!

- a. Strong cleaning stains.
- b. Clean kitchen stains in all directions.
- c. Cleaning, glazing, protection, three in one effect.
- d. Dissolution of oil quickly.

Application

1. 100% Non-toxic&grease-free.
2. Ultra Cleaning Solution.
3. Widely Applicable.

Package:400ml/250g X12psc
Shelf Life:3 years

Brake Cleaner

Features

SANVO Brake Cleaner can penetrate, dissolve and remove dust, oil and impurities on the brake system, clutch and brake calipers. Maintain the excellent braking performance of the braking system and eliminate the harshness of the brakes.

1. Fast Evaporating Formula.
2. Stops Brake Squeal.
3. Improved Brake Performance.
4. Removes Brake Fluid, Oil, Grease & Contaminants.
5. Use on rotors, drums, linings, clutches and gaskets surfaces.

Application

1. ABS, disc, drum, brake cylinders, brake drums, brake linings, brake shoes, calipers, clutch discs, disc brake pads, discs.
2. Safe for use on all brake systems including springs and wedge brakes.
3. Non-chlorinated brake cleaner gets rid of brake fluid, grease, oil and other contaminants.

Package:650ml/350gX12pcs
Shelf Life:3 years

Chain Cleaner

Features

SANVO Chain Cleaner has been designed to melt away grease, dirt, wax and grime while leaving delicate O-rings unharmed. It will not adversely affect chrome or clear coated paint. The formula was designed with safety, health and environment in mind. Simply spray the formula on and it immediately gets to work dissolving the unwanted contaminants on your vehicle. Keep your vehicle running smoothly with this unique formula that is designed to maximized chain life.

1. Safe on all chain types.
2. Safe on all rubber belt drives.
3. Quick drying 'zero-residue' formula.
4. Eliminates all chain contaminants to prevent chain wear.
5. Rapidly removes oil, grease & grime without the need for water.

Application

It's safe to use on rubber, metal and carbon fibre components and suitable for O, x and Z-ring moto chains.

Package:400ml/250gX12pcs
Shelf Life:3 years

Engine Degreaser

Features

SANVO Engine Degreaser is a concentrated, solvent-based, degreaser. With the special formulation, it can dissolve oil, clean dust and grime on surface of engine. When we have a clean engine, we can find issues earlier, such as oil leaks. Then we can fix it before the big problem happened.

1. Clings to surfaces, Penetrates grease and oil.
2. Fast acting, No scrubbing required.
3. Eliminates baked-on grime and deposits.
4. Heavy-duty degreaser removes engine deposits.

Application

Recommended for cleaning and degreasing automobile engines, industrial equipment, farm equipment, lawn mowers, garage floors and tools, marine equipment and machinery.

Package:650ml/350gX12pcs
Shelf Life:3 years

Multi-purpose Anti-rust Lubricant

Features

SANVO Multi-purpose Anti-Rust Lubricant is mainly composed of petroleum solvents, rust inhibitors, and lubricants. It integrates the functions of rust prevention, dehumidification, loosening, rust removal, lubrication, cleaning, etc.; cooperatively protects various equipment, making work more convenient. It is suitable for metallurgy, molds, shipping, communication equipment, airplanes, automobiles, motorcycles, bicycles and many other fields. It is also suitable for home and outdoor activities. It is known as "multi-purpose maintenance agent for metal products".

1. Lubricating ingredients are wide to all moving parts.
2. Loosens rust-to-metal bonds and frees stuck.
3. Protects metal surfaces with corrosion-resistant ingredients
4. Dissolves adhesives, allowing easy removal of excess bonding material.
5. Displaces moisture

Application

It is widely used in vehicles, ships, families, factories, tools and machine rooms. There are more functions waiting for you to explore.

Package:200ml/150gX24pcs
Shelf Life:5 years

Chain Lube

Features

Sanvo Chain Lube uses a special formula, and the lubricating fluid penetrates into chain links and thickens to provide an extra lubricating and shock absorbing film and reduces chain stretch and the requirement for frequent adjustments. This formula also protects the chain against the element for increased chain service life, reliability and performance, excellent lubricating and penetrating qualities. For high speed and O-ring chains.

1. Specially contain PTFE.
2. Not easy to stain.
3. Eliminate abnormal riding noise.
4. Effectively reduce the friction and wear consumption of the transmission system.

Application

Widely used in transmission parts such as bicycle chains, crankshafts, gears, transmissions, etc.

Package:200ml/150g×24 pcs 400ml/250g×12 pcs
Shelf Life:3 years

Dashboard Wax Spray

Features

SANVO Dashboard Wax Spray is mainly composed of high-grade wax and petroleum solvents. It adopts a unique formula and has the functions of cleaning, glazing, dustproof and anti-aging. It is suitable for automobile dashboards, leather seats, synthetic leather, tires, home appliances, rubber, plastics, etc. Clean and polish. Regular use can keep the surface smooth and clean.

1. Clean and dustproof.
2. Glazing, long-lasting shine.
3. Does not hurt the epidermis.
4. Convenient operation.

Application

Suitable for automobile dashboards, leather seats, synthetic leather, tires, home appliances, rubber, plastics, etc.

Package:450ml/250g×12 pcs
Shelf Life:2 years

Stainless Steel Brightening Protective Agent

Features

This product adopts a unique high-gloss formula, which can remove stains on the surface of steel, and can increase the luster of the metal surface without leaving water marks and fingerprints, and keep the surface dry, non-greasy, and lasting. Protection, cleaning, and glazing can be done in one step, saving time and convenience.

1. High-gloss formula
2. Keep the surface dry, non-greasy, and lasting effect.
3. Protect, clean and polish in one step

Application

1. Suitable for stainless steel, chromium for construction, aluminum alloy and other indoor metal surfaces.
2. It can be used on other hard surfaces that can be cleaned, such as ceramics, plastic laminates, etc.

Package:350ml/253g×12 pcs
Shelf Life:2 years

Silicone Spray

Features

SANVO Silicone Spray is formulated with silicone oil fluid. It is a colorless, odorless, protective lubricant, non-conductive and water resistant product. It will not affect plastics or polycarbonates.

1. High quality, high performance and eco-friendly.
2. Good slippage, isolation, and water repellency.
3. High temperature resistance and chemical stability.
4. Easy to use and high efficiency.

Application

1. Food packaging industry
2. Printing industry
3. Curtain and door track lubricant
4. Protection of electrical systems
5. Mould release agent for plastic and rubber
6. General purpose lubricant for household and garden.

Package:650ml/250g×12 pcs
Shelf Life:2 years

Tire Foam Cleaner

Features

SANVO Tire Foam Cleaner produce plenty of foam to provide a protective surface on the tire while cleaning dirty and it does no harm to human being or the environment. Adopts unique brighten factor and formula to bring more lasting brightness to the tire, can restore the original black brightness, prevent the tire colour fading, whitening, yellowing and other conditions, and keep the tire bright.

1. Cleaning, glazing, protection in one
2. Rich foam, fast and efficient
3. Convenient and quick.

Application

Tire, bumper, engine strip, car window strip

Package:400ml/250g×12 pcs
Shelf Life:3years

Glass Anti-fogging Spray

Features

SANVO Glass Anti-fogging Spray has multiple functions such as anti-fogging, cleaning, defogging etc, which can effectively remove the fog attached to the surface in cold and humid weather or hot and cold temperature difference. It is different from traditional foam product. It is simple and fast to use. It can maintain the glass surface with one spray and one wipe.

1. Adopts bag valve packaging, liquid and propellant are separately packed, more safety and eco-friendly.
2. Easy to use and high efficiency.

Application

1. Car interior window glass.
2. Diving goggles.
3. Bathroom glass.
4. Daily life glasses.
5. Home glass .

Package:200ml/71g×24 pcs
Shelf Life:3 years

Antibacterial Deodorant Spray

Features

SANVO Antibacterial Deodorant Spray can be used for Antibacterial and deodorizing, it can effectively remove the mold, bacteria and smoke odor that grow in small spaces due to daily use. Suitable for car interiors, car air conditioners and household appliances.

1. Freshen the air in the car and relieve stress
2. Multi-directional no dead ends
3. Easy to use, fast and efficient

Application

1. Eliminate odors in the car
2. Air conditioner antibacterial
3. Toilet deodorization

Package:200ml/130g×24 pcs
Shelf Life:2 years

Non-flammable Air Duster

Features

Using precision electronic cleaning technology, used in the precision parts of electronic equipment where conventional cleaning methods are prohibited.

1. High purity gas
2. Go deep into the unreachable gap.
3. Effectively clean non-touchable surfaces.
4. Harmless to plastic, rubber, metal glass and painted surface.

Application

Widely used in laptop keyboards, fans, motherboards, optical drives, fax machines, copiers, mobile phones, digital cameras, CT medical equipment, etc.

Package:300/500ml×12 pcs
Shelf Life:5 years

R-134a For Auto Air Conditioner

Features

CF3-CH2F (1,1,1,2-tetrafluoroethane)Purity \geq 99.9%
Water content \leq 0.001% Acidity \leq 0.0001%
Leftover \leq 0.01%

1. Excellent environmental performance.
2. High purity.
3. Excellent cooling effect.

Application

It can be used in automobile air-conditioning system whose refrigerant is R134a

Package:385ml/300g×30 pcs
Shelf Life:5 years

Low Temperature Starting Agent

Features

SANVO Low Temperature Starting Agent is a unique blend of chemicals that contains 25% ether to assist in starting petrol or diesel engines, even in the most difficult weather conditions, which helps to reduce excessive battery drain. Contains an upper cylinder lubricant and corrosion inhibitor. Will provide up to 200 starts.

1. Quick start, easy to use.
2. No damage to the engine, no knock.
3. Prevent excessive loss of battery and ignition switch.

Application

It is suitable for gasoline and diesel engines that are difficult to ignite and start under cold conditions (0°C~-40°C).

Package:650ml/350g×12 pcs
Shelf Life:3 years
